

MUHAMMAD HASHAM NADEEM

Software Engineer – Web & Mobile (React / React Native)

• hasham.nadeem112@gmail.com • github.com/hashamnadeem112 • 03134951116 • Lahore

SUMMARY

Results-driven **Senior React Native & React Developer** with **4.5+** years of experience in building and delivering high-performance cross-platform mobile applications for iOS and Android and websites. Skilled in React Native, Redux, React, Firebase, API Integration, and Native Modules, with proven expertise in NFC implementation, payment gateway integration (Stripe, Apple Pay, Google Pay), real-time chat systems (Socket.IO), and performance optimization. Adept at collaborating in agile teams, leading junior developers, and delivering scalable, user-centric mobile solutions.

TECHNICAL SKILLS

- | | | | |
|------------------|----------------------------|------------------|----------------------|
| • React Native | • React | • JavaScript | • TypeScript |
| • Redux | • HTML | • CSS | • UI/UX Optimization |
| • Firebase | • Version Control (Git) | • Native Modules | • App Deployment |
| • Android Studio | • API Integration | • Jest | • Socket.io |
| • Xcode | • Performance Optimization | • Context API | • Gradle |

WORK EXPERIENCE

Senior React Native & React Engineer, Avicenna Enterprise Solutions Sep 2024 - Present

- Led a team, delivering high-performance cross-platform apps with clean, maintainable codebases.
- Proficient in enhancing app performance, and building responsive, user-friendly components in React Native.
- Developed NFC functionality, enabling read/write capabilities and integrating with Firebase for real-time data storage and validation.
- Collaborated with cross-functional teams, enhancing project success rates by 60%.

React Native Engineer, Falcon IT Consulting Sep 2022 - Sep 2024

- Managed project timelines, reducing delivery times by 30%.
- Skilled in integrating third-party libraries, APIs, and custom native functionality for Android and iOS using Native Modules
- Proficient in enhancing app performance, and building responsive, user-friendly components in React Native.
- Collaborated with cross-functional teams, enhancing project success rates by 10%
- Skilled in implementing redux and context API for state management
- Completed training on mobile design patterns and Restful API integration best practices.
- Completed one UI project, meeting all requirements and delivering high-quality results.
- Proficient in designing pixel-perfect UIs.

PROJECTS

EzyEvent (Client, Vendor Side)

As a team member, I integrated Stripe, fetched data from user cards, chat with Socket.IO with multimedia chats, and implemented a complete payment flow. APK is attached below.

<https://drive.google.com/drive/folders/1dw-TPd2e001wS-uWKdaR6aFYd-aLMneC?usp=sharing>

GAWAPP (Coffee Lovers App)

As a team member, I developed the whole app, I integrated Stripe with complete payment flow, QR Scan Functionality, NFC Scan Functionality, Integrated Apple Pay, and Google Pay. Live on Apple and Google Store.

https://play.google.com/store/apps/details?id=com.gawapp&hl=en_US

<https://apps.apple.com/ae/app/gawapp/id6468561505>

Baddour Rentals

As a team member, I developed the UI of the App to register their cars for rent and integrated pickup and drop-off map functionality, Live in both stores.
